Experience

Boholweb | 2023 – 2025

Freelance Web Developer

- Acted as a key contributor to the agency's main site, focusing on the integration of the AI- powered security dashboard and cleaning up site-wide optimization issues.
- Site Maintenance: Executed daily maintenance tasks, including Core and Plugin updates, security scans, and off-site backups to maintain 100% site uptime.
- Performance Tuning: Optimized website load times and performance metrics, resulting in better search engine rankings and improved user retention.

Lead Developert | 2023 – 2026

Student Capstone Project

- Full-Cycle Development: Spearheaded the technical architecture and programming for a high-stakes academic capstone project, ensuring all functional requirements were met within a strict deadline.
- System Integration: Developed a custom management system that streamlined data handling, ensuring all functional requirements were met within strict academic deadlines.
